# IN THE BEGINNING THERE WAS ONE

- In the beginning there was one,
- then two, then a tribe,
- then a community,
- then a town,
- then a city,
- then a state, then a nation,
- then an alliance,
- and then a community of nations.

# NOW THERE IS A WORLD

- **Now there is a world.**
- **One world,**
- **one civilization,**
- **one planet one ecosphere.**
- **And it is time for the beings of that world to move to the next level.**

# **MOVING TO THE NEXT PHASE**

- **The Earth represents the centre of a bubble of life in a universe that seems hostile to life, and yet welcomes its attempts to expand.**
- **Thus we begin the next phase.**
- **An explosion of life, liberty and love,**
- **as the better aspects of humanity are at last unleashed to carry the seeds of hope and Earth outwards to worlds unknown.**
